# Boom●Camera
Quickstart Guide

Components Required for Quick Assembly

ASSEMBLY STEPS

☐ Use the built-in screw on the top of the grip to mount the screen holder
☐ Power the phone and tighten into screen holder (USB port to the right)
☐ Slide the gimbal into the pole-end, maintain pressure, tighten the screw
☐ Pin the camera to the gimbal
  o Camera faces away from the grip with the LEDs up
  o Gimbal pinned to the left side of the camera with the arm below
☐ Connect the phone to the grip with the right-angle USB 3.0 type C cable
☐ Connect the 8-pin circular connector and coiled USB from pole to camera

POWERING STEPS

☐ Power the phone – do this early to enable full boot-up
☐ Use the left-side grip switch to turn-on main power
  o With a full charge three green LEDs will be visible on the camera
☐ Press and hold gimbal power button – gimbal will rotate to home position
☐ Press and hold the gimbal remote power – solid blue LED indicates pair

OPERATION

☐ Press the gimbal mode button once to enter thumbstick control mode
☐ Ensure a tether between Boomcam and phone (key icon in top right)
  o Unplug and replug the phone USB cable if the key isn't there
☐ Start the Boom Camera App
